## Sit-Stand Workstations

### Work Better, Feel Better, Effortlessly.

Over the past 10 years study after study has confirmed sitting for prolonged periods of time is harmful to your health. As a leader in workspace management solutions, we knew we wanted to create a product for this problem. Our next generation sit-stand products combine a wealth of research and product development with our deep understanding of the office workspace. They're designed to be easy to use, adjustable, and worry-free. Plus, they're engineered with the durability to transition from sitting to standing multiple times a day. All this adds up to a better sit-stand experience.

Two hours of sitting  
cancels out 20 minutes  
of exercise <sup>1</sup>

You burn 30 percent more  
calories when you are standing  
rather than sitting <sup>4</sup>

It is important to  
alternate between  
sitting and standing  
throughout the day

Research shows a 46 percent  
increase in workplace productivity  
with use of standing desks <sup>3</sup>

Prolonged sitting has been  
linked to high blood pressure  
and elevated cholesterol <sup>2</sup>
