Document shredders
HSM SECURIO

Product overview

HSM®

Great Products, Great People.

Document shredders HSM SECURIO

The document shredders HSM SECURIO stands for „Made in Germany" quality at the highest level. Whether its C-line for use at home, B-line for small businesses or document shredders HSM SECURIO from the P-line for professional use:
All HSM SECURIO shredders are premium appliances and are contemporary and reliable security partners.

Advantages:

- The hardened steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.

- High quality materials and „Made in Germany" quality for security and durability. With 3 years warranty.

- The HSM SECURIO document shredders are particularly efficient thanks to energy-saving management systems:
- Zero power consumption in stand-by mode (models C14 and C16).
- EcoSmart: Particularly low power consumption of 0.1 Watt in standby mode (models C18 to B35).
- Energy-saving management system EMCS: 90 percent energy savings thanks to the sleep mode and automatic shutdown (models P36 to P44).

- The powerful motor ensures a high cutting capacity and reliable continuous operation.

- The device can be intuitively operated with the multifunction element.

- The filling level of the waste container can be seen at all times through the inspection window.

- Waste separation is easy, thanks to separate waste bags or separate containers for paper or CDs.*

- The automatic return flow solves paper jams and provides for a smooth operation.*

- User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.*

* Depending on model

HSM – a reason for every detail.

Actual zero power consumption in stand-by mode, thanks to ZES (Zero Energy Standby) in the models HSM SECURIO C14 and C16.

0.1 Watt power consumption in standby-mode for the document shredders HSM SECURIO C18 to B35.

Compared to standard stand-by function without HSM´s energy-saving management system EMCS. Applies to all models starting from the HSM SECURIO P36.

Lifetime warranty on steel cutting rollers in HSM SECURIO document shredders at security levels P-2 to P-5.

3 years warranty for the document shredders HSM SECURIO.

HSM produces all document shredders in the HSM SECURIO range in Germany.

| P | O | T | E | F |

Check which protection level your data needs according to the DIN standard 66399. The higher the security level (1-7), the smaller the particle of the shredded material. Join up your relevant media and the security level to choose the appropriate document shredder.

Available as option:

O Automatic oiler for the cutting unit (250 ml)

D Metal detection

C Separate CD cutting unit in cutting size 4 x 7 mm

E Separate CD cutting + metal detection

M Separate OMDD cutting unit for extra small CD- and credit card particles in 2 x 2 mm

N Separate OMDD cutting unit + metal detection

P PAPERcontrol for paper thickness measurement

Q PAPERcontrol + automatic oiler for the cutting unit (250 ml)

THE BLUE ANGEL
because energy-efficient
protects the CLIMATE

Low energy consumption, durable design and the avoidance of materials that are harmful to the environment characterise HSM document shredders. These were the reasons for awarding the document shredders from the HSM SECURIO series with the Blue Angel.

Document shredders HSM SECURIO AF

The tried and tested HSM SECURIO, now with automatic feed (auto feed). The simple and convenient method for data destruction in the workplace and for working groups. The HSM SECURIO AF easily, efficiently and safely shreds stacks of paper between 150 and 500 sheets (depending on model) and a single sheet of paper.

The advantages of the HSM SECURIO AF series:
- The document shredder with autofeed has a specially developed intake and transport rollers with Nanogrip Technology. This enables sheet after sheet to be pulled in securely from the stack of paper.
- Useful dual function: During the autofeed stack processing, it is possible to manually feed paper at the same time.
- It is possible to secure the paper stack inserted into the magazine against unauthorized access by using the Lock-and-Go function (except HSM SECURIO AF150).

- An integrated light barrier automatically starts the device if paper is fed in manually.
- For convenience, there are castors on the document shredder so it is easy to move around.
- In standby mode, intelligent control programme EcoSmart ensures there is a particularly low power consumption of 0.1 Watt.
