

# HOW WORK NOW WORKS

The work-world has changed. Whether the workforce is remaining at home, returning to the office, or a combination of both, it's time to reimagine their print environment to retrofit the new ways of working. And that starts with Brother.

## Solutions for In-Office Workers

Brother offers technology that supports minimized device contact to ensure a more comfortable and secure environment for employees in today's workplace.

### MINIMIZED DEVICE CONTACT:

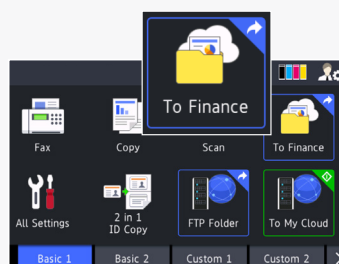

Brother devices offer features that can help limit interaction at the device to ensure social distancing and address safety precaution mandates for the workplace of today. These features include: Print Job Release via company badges or mobile phones, workflow shortcuts and remote management and configuration.

#### PRINT JOB RELEASE

**Secure Print+** offers print job release via an NFC card or tag to help reduce front panel contact for confidential or sensitive documents.

#### WORKFLOW SHORTCUTS

**Minimize front panel contact, simplify machine use, and help reduce errors.**

With easy menu navigation and the option of creating customized shortcuts for frequently used functions, simplify even the most complicated tasks to drive employee productivity. Icons can be added to or removed from the touchscreen display and tabs can be named and customized to further tailor the look of the screen for enhanced workflow on select models.

#### REMOTE MANAGEMENT

**Remote Panel** offers remote access to the front panel of the device through an Embedded Web Server (EWS). Enables **remote configuration**, as well as checking **machine status, error conditions, and service reports**. Helps reduce personal contact with the printer.

# HOW WORK NOW WORKS

## Solutions for Remote Workers

To ensure employees can operate productively at home, Brother offers printers, MFPs, scanners and label printers with similar features and capabilities as the equipment in their corporate office. Brother can also help companies standardize their corporate work from home and office printer fleet.
